You will be joining the core team of a rapidly expanding company focused on making Cloud products for Google Workspace. You'd be responsible for development as well as understand customer requirements and provide solutions from the strong features of our product. Plus, you'll also get to code being a part of a solid technical team. Overall, this role will give you a solid boost and head start in your career.

Responsibilities:

- Design and build applications on Java/PHP platform
- Coding, unit testing and maintaining.
- Understand our products technically
- Getting a quick in-depth understanding of product features from technical and business standpoint.
- Provide solutions to customer problems leveraging our and Google's products and document the same
- Give Demos to customer, perform Proof of Concepts
- Manage delivery of the solutions as committed to customers
- Coordination with team members and customer

Specific Skill Sets:

- Experience with College Level Projects on Java, PHP
- Strong knowledge of web technologies
- Good Knowledge on Database concepts
- Should be approachable and a team player.
- Should be an excellent and clear communicator
- Innovative, creative and smart professional.

- Ability to work on projects without detailed instructions; being a selfstarter and taking ownership is a crucial requirement for this role.

Years of Experience:

- 0 to 1 year (Prior experience can be helpful)

Basic Salary:

- 2.25 - 2.75 Lac with structure (for freshers and can vary for experienced) based on profile(including training period of 90 working days + 1 year of Employment post training period)

Company Terms and Conditions:

- We invest and spend a substantial amount of money and resources in Employee training; very highly paid seniors would be involved in training. Our cost for this training is estimated at 35% of the yearly Cost to Company (CTC) of the Employee. However, this training will be offered completely free of cost provided the employee works with us for 2 years after the training period. Else 35% of CTC (negotiable basis) as Training Fees may be payable by Employee to us.
- Upon selection, the Employee must submit original documents for background verification at the time of signing of the Employment Agreement. These documents will be returned to the Employee after the verification is completed (approx. after 1 month of joining).
